I have never come across a book with no product information, with only spelling mistakes, no paragraph arrangements, etc. I never thought I will end up feeling sorry about this. The worst publications I have ever come across in my whole life. 0 of 0 people found the following review helpful. Freedom of the Will By Donna B Gave as gift 24 of 27 people found the following review helpful. An apparent complete lack of proofreading of the text before printing. By Leon C. Stansfield I ordered this book, same cover, about a month ago through and have begun reading it. I read some of it aloud to my wife, as I enjoy reading aloud. I have reached page 26. Here is what I have discovered: (1) Jonathan Edwards is very difficult to read. His thoughts are intricate and detailed. He was very intelligent, but his writing is not for the ordinary reader. (2) This particular printing --- Copyright 2011 ISBN 978-1463659899 --- was quite obviously typeset and printed without anyone taking the time to proofread the text for obvious errors. For example, on page 20, paragraph 2, second sentence, I find this: [my suggested corrections in brackets]"For that which is possessed of no will, cannot have any paver [power] or opportunity of doing according to its mill, [will] nor be necessitated to act contrary to its will . . ." Near the end of the same paragraph is the this: ". . . but not that the bird's power of flying has a power arid [and] Liberty of flying." Then in the next paragraph we find this: "But that which has no will, cannot be subject of these things, -- I need say the less on this bead [head], Mr. Locke having set the same thing forth . . ." When one is seeking to gain a knowledge of Mr. Edwards' thoughts it is disturbing to have to try to figure out what the original text actually says. As a publisher of numerous books via lulu.com, most of which I market via my own website and which includes two books [Luther on Human Will, and The Bondage of the Will] for which the text was meticulously copied from, or abridged from, other texts, I think I have a duty to report this kind of poor workmanship. I also found typos on pages 9, 14, 17, 18, 19, 23 and 24. At this point it could be assumed that additional typos will be found throughout the text. Finally, the book has no standard copyright page, but is listed as copyright 2011 by Legacy Publications on the title page. It provides no physical address, no website, and no email address by which anyone may contact them. This seems to be somewhat irregular among publishers. On the back of the final page is written "Made in the USA San Bernardino, CA 27 April 2013" which was probably the date the book was
